Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: http://www.uspto.gov/main/howtofees.htm.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

The application has been amended as follows:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

✓ The title has been changed as follows: Capacitor Forming Methods With BarrierLayers To Threshold Voltage Shift Inducing Material.

Allowable Subject Matter

Claims 1-50 are allowable over prior art of record.

The following is an examiner's statement of reasons for allowance: None of prior arts taken alone or in combination, teach or suggest each and every features for forming a capacitor, which include the steps of forming a barrier layer on a high K dielectric layer, to threshold voltage shift inducing material over the insulation layer and the barrier layer; wherein the barrier layer retarding movement of the threshold voltage shift inducing material into the electronic device.

Art Unit: 2813

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited Prior Art

Huang (U.S. 5,783,462) in related art disclose a stacked capacitor DRAM cell, which including an insulation layer 14 over a substrate including transistor 16; a barrier layer; an opening at least into the insulation layer 14 ; a capacitor dielectric 25 layer; a congruent opening through the barrier layer; where in the opening is formed completely through the insulation layer; forming a lower capacitor electrode 24A/24B before forming the dielectric layer, an second insulation 28 layer over the barrier layer; an opening 66 into the second insulation layer; a capacitor dielectric layer 25 over the barrier layer. However, Huang does not disclose a barrier layer, to threshold voltage shift inducing material over the insulation layer and the barrier layer; wherein the barrier layer retarding movement of the threshold voltage shift inducing material into the electronic device.
